

Juan Higuera

Frontend Developer

About

I am a junior Frontend Developer currently finishing my degree in Computer Science, with hands-on experience through an internship working with React and JavaScript in a real product environment.

I am looking for my first full-time opportunity where I can continue learning, grow professionally and contribute to real-world projects.

Personal info

Specialization area

Software • Web Design
• Front-Dev

Interest

I would like to find a Frontend job to gain a broader knowledge about it and apply everything I know.

Besides having a lot of passion for what I have studied, I am motivated to grow as a frontend developer, contribute to meaningful projects and continue improving my technical and professional skills.
